EchoStar Corporation

Limited Capital Allocation Details as Spectrum Sale Awaits Regulatory Approval

Not Rated

SATS, SATS US
Price (09 Mar 26):$106.24

EchoStar reported better-than-expected 4Q results, with higher revenue and OIBDA, but softer retail wireless net adds. We lower our 2026 consolidated revenue by 4% to $14.57b and raise total company AOIBDA to $1.89b. With spectrum sales still awaiting regulatory approval (expected to close in 1H26), management provided no additional detail on potential uses of capital (passive vs. active M&A and/or capital returns).

- **EchoStar capital update.** CEO Hamid Akhavan provided no new details on potential uses of proceeds following the expected first-half capital "influx" but reiterated that the company is preparing to allocate and deploy funds to maximize shareholder returns. He added that EchoStar will target both near- and long-term opportunities, including passive and active investments. While management is "confident" in achieving the best outcome for shareholders, investor focus remains on capital allocation decisions, including potential M&A in adjacent industries. We continue to view capital returns to shareholders as unlikely.
- **PayTV : Lower 2026 DBS net losses to 560k; cut 2026 AOIBDA to $2.45b on lower margins.** Following improved 4Q25 churn, we reduce our 2026 DBS churn estimate by 3 bps to 1.29%, reflecting the company's focus on higher-quality subs. We now model 2026 DBS net losses of 560k (vs. -615k prior), including gross adds of 169k (-16% y/y). After better-than-expected Sling TV net losses in 4Q, we reduce 2026 losses to 75k (from 100k prior). In total, we now forecast video net losses of 635k (vs. 715k prior). Video ARPU declined 2% in 4Q despite a full-quarter benefit from the Sept'25 price increase, which we attribute to a higher Sling TV mix; accordingly, we lower our 2026 ARPU by 2% to $112.65 (+2% y/y). Overall, 2026 segment revenue is ~1% lower at $9.01b, driving an 8% reduction in AOIBDA to $2.45b (-8% y/y).
- **Wireless and Other: Lower 2026 retail wireless net adds to 800k.** We lower our 2026 retail net adds to 800k (from +1.05m) reflecting lower gross adds of 3.42m (vs. 3.69m prior) and higher churn of 2.77% (vs. 2.67% prior) given EchoStar's focus on profitable subscriber growth. We trim our 2026 ARPU by 0.5% to $37.89 (+1% y/y). Consistent with management's expectations for "a very close to breakeven" retail wireless business and a "big decrease" in other costs, we lower our 2026 wireless and other AOIBDA drag to $863m.
- **Broadband and Satellite Services: Raise 2026 broadband net losses to 160k; trim 2026 AOIBDA to $300m.** We raise 2026 broadband net losses to 160k (from -116k prior) to reflect higher 4Q losses and increased competition. We largely maintain our 2026 revenue at $1.39b, with higher equipment revenue of $397m (enterprise hardware sales) offsetting lower service revenue of $989m (on higher sub losses). Updated segment AOIBDA is $300m, implying margins of ~21.6%.

The chart(s) show J.P. Morgan's continuing coverage of the stocks; the current analysts may or may not have covered it over the entire period.
J.P. Morgan ratings or designations: OW = Overweight, N= Neutral, UW = Underweight, NR = Not Rated

Explanation of Equity Research Ratings, Designations and Analyst(s) Coverage Universe:
J.P. Morgan uses the following rating system: Overweight (over the duration of the price target indicated in this report, we expect this stock will outperform the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe); Neutral (over the duration of the price target indicated in this report, we expect this stock will perform in line with the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe); and Underweight (over the duration of the price target indicated in this report, we expect this stock will underperform the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe. NR is Not Rated. In this case, J.P. Morgan has removed the rating and, if applicable, the price target, for this stock because of either a lack of a sufficient fundamental basis or for legal, regulatory or policy reasons. The previous rating and, if applicable, the price target, no longer should be relied upon. An NR designation is not a recommendation or a rating. Some stocks under coverage have a rating but no price target; in these cases, we expect the stock will outperform/perform in line/underperform the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe of the relevant duration of the region. In our Asia (ex-Australia and ex-India) and U.K. small- and mid-cap Equity Research, each stock's expected total return is compared to the expected total return of a benchmark country market index, not to those Research Analysts' coverage universe. If it does not appear in the Important Disclosures section of this report, the certifying Research Analyst's coverage universe can be found on J.P. Morgan's Research website, https://www.jpmorganmarkets.com.
